Forecast for Sunday 04 Oct 2020

Weather: Overcast with occasional rain at first, then turning drier from the east during the early hours, with clears spells most evident come dawn across the west of the Park. A mix of sunshine and showers through the day with best of the brightness over western peaks through the relatively dry morning, with showers building through the afternoon, bringing a small risk of hail and thunder. Showers easing during evening, becoming generally confined to a few lighter outbreaks across eastern ranges for the late evening.

Chance of cloud free mountain/hill tops above 600m: By day ranging from 20% in the east and 75% in west with bases extensive from 600-800 and broken from 700-1000m respectively.

Visibility: By day outwith the hill fog and showers good or very good, but poor in early rain and later showers.
